PROFESSIONAL SUMMARY

Results-driven Data Analytics professional and Software Developer with a Master's in Data Analytics and a background in Computer Science and Engineering. Skilled in Python, SQL, Power BI, Tableau, Excel, and data visualization, with hands-on experience analyzing KPIs, customer behavior, web and campaign performance, and market trends. Experienced in transforming complex data into actionable insights, dashboards, reports, and business-focused recommendations for stakeholders. Combines strong analytical, problem-solving, and technical skills with experience in cross-functional collaboration, software development, and data-driven decision-making.

TECHNICAL SKILLS

Programming and Query Languages: Python, SQL, R, Java, C++, C#, JavaScript, PHP, HTML, CSS

Data Analytics and BI Tools: Power BI, Tableau, Microsoft Excel (PivotTables, VLOOKUP, Power Query), Google Analytics

Data and Machine Learning: Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Predictive Modeling, Machine Learning, Data Visualization, Big Data Management

Software and Web Development: .NET Framework, Full-Stack Web Development, REST APIs, UI/UX Design, SEO Optimization

Other Technologies: Cybersecurity, Kali Linux, Ethical Hacking, IoT, CUDA, Cloud Computing

Core Competencies: KPI Tracking, Business Intelligence Reporting, Market Research, Requirements Gathering, Stakeholder Presentations, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Data Specialist | Happy Cramps | Brampton, Ontario, Canada | March 2026 – Present

- Contribute to a market validation and digital optimization project analyzing customer behaviour, sales processes, and customer acquisition opportunities to support business growth.
- Track and report key performance indicators (KPIs) using Google Analytics, translating web and campaign data into data-driven recommendations for marketing and leadership teams.
- Assess digital optimization opportunities by reviewing customer acquisition management, marketing performance, and emerging technology use cases.
- Present findings and recommendations to stakeholders through structured analysis and business-focused presentations.

Data Analyst Intern | Happy Cramps | Brampton, Ontario, Canada | January 2026 – March 2026

- Conducted market and competitor research to evaluate customer acquisition channels, marketing performance, and emerging technology use cases.
- Supported KPI tracking and Google Analytics reporting, turning web and campaign data into actionable insights.
- Collaborated with cross-functional team members to define reporting requirements and standardize how performance data was measured and communicated.

Sales Floor Associate | TJX Canada (Winners, Marshalls, HomeSense) | Ontario, Canada | August 2025 – Present

- Assist customers on the sales floor in a high-volume retail environment, providing product knowledge and service.

Software Developer | InfoServOps | Vadodara, Gujarat, India | February 2022 – July 2024

- Developed and maintained in-house web products across front-end and back-end layers, contributing to feature delivery throughout the development lifecycle.
- Designed user interfaces to improve the visual and interactive experience of web applications.
- Participated in code reviews and team planning sessions, applying feedback to improve code quality and delivery timelines.
- Debugged and resolved functional defects to ensure reliable application performance and a seamless end-user experience.

EDUCATION

Master of Data Analytics | University of Niagara Falls Canada, Niagara Falls, Ontario

January 2025 – July 2026 | Relevant coursework: Data Analytics, Business Intelligence, Machine Learning, Predictive Modeling, Data Visualization, Big Data Management, Statistical Analysis

Bachelor in computer science and engineering | Parul University, Vadodara, Gujarat, India

2021 – 2024 | Relevant coursework: Artificial Intelligence, Software Development, Cybersecurity, Cloud Computing

Diploma in Computer Engineering | Parul University, Vadodara, Gujarat, India

2018 – 2021 | Relevant coursework: Web Development, Android Application Development, Game Development
